

Date: 20.01.2024; 1402/10/30

Patient's Name: T.S

Responsible Physician: Dr.Omranipour

Patient presentation: A woman known case of bilateral ILC with skin involvement of neck and sternal area. After Neoadjuvant Chemotherapy and Radiotherapy she had clinical complete response. Now she takes Palbociclib and Letrozole.

Question:

Is she candidate for mastectomy?

Recommended plan:

- 1- No surgery is recommended
- 2- Continue medical therapy
