

Date: 27.01.2024; 1402/11/07

Patient's Name: N.A

Responsible Physician: Dr.Majidinejad

Patient presentation: A 50 year-old woman with IDC, ER: negative, PR: negative, HER-2: triple positive. She underwent the last session of Neoadjuvant Chemotherapy on 5.1402. BCS and SLNB (1/4) were done on 8.1402. She didn't come for adjuvant treatment until now.

Question:

Does she benefit from adjuvant treatment with such delay?

Recommended plan:

- Adjuvant treatment is beneficial.
