

Date: 04.10.2025; 1404/07/12

Patient's Name: O.M

Responsible Physician: Dr.Ebrahimi

Patient presentation:

A 49 Y/O lady who underwent BCT +SLNB following neo-adjuvant chemotherapy had 5 free slns in F/S

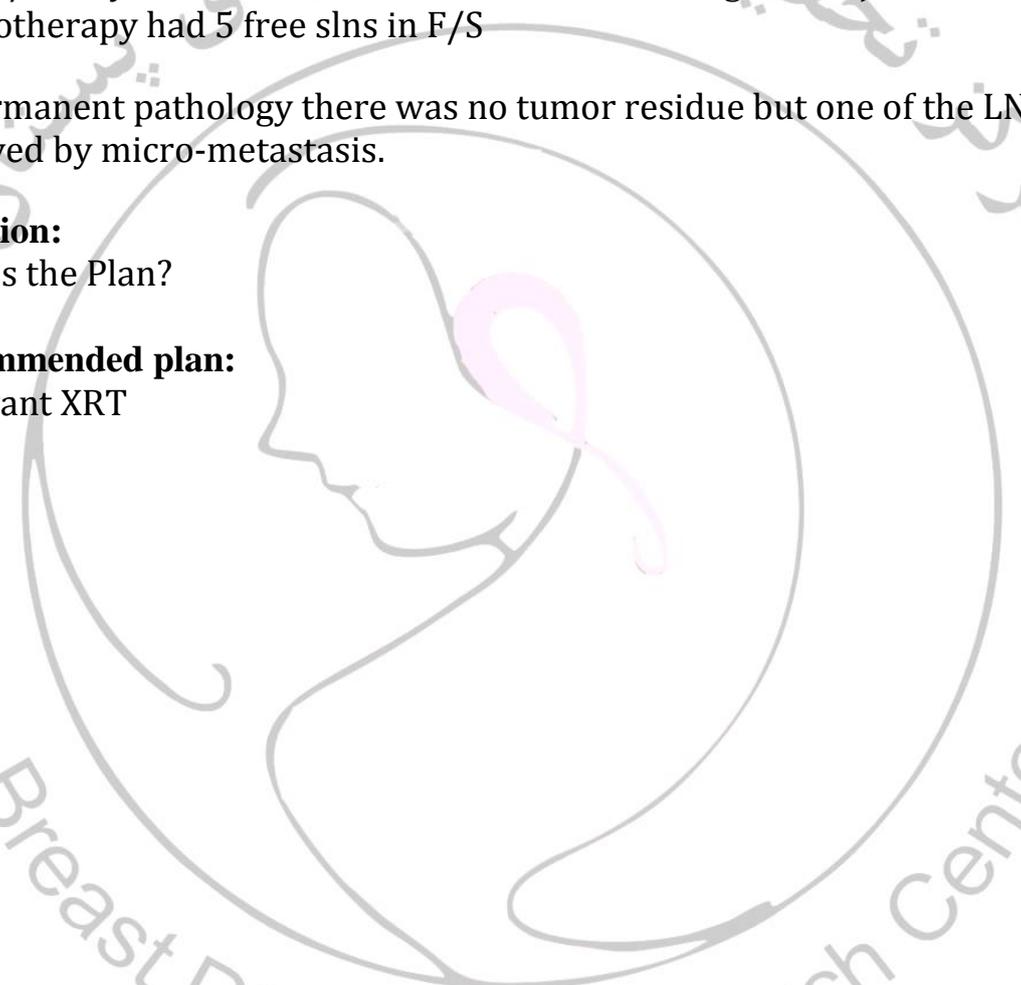

In permanent pathology there was no tumor residue but one of the LNs was involved by micro-metastasis.

Question:

What's the Plan?

Recommended plan:

Adjuvant XRT
