

**Date: 25.10.2025; 1404/08/03**

**Patient's Name: N.SH**

**Responsible Physician: Dr. OmraniPour**

**Patient presentation:**

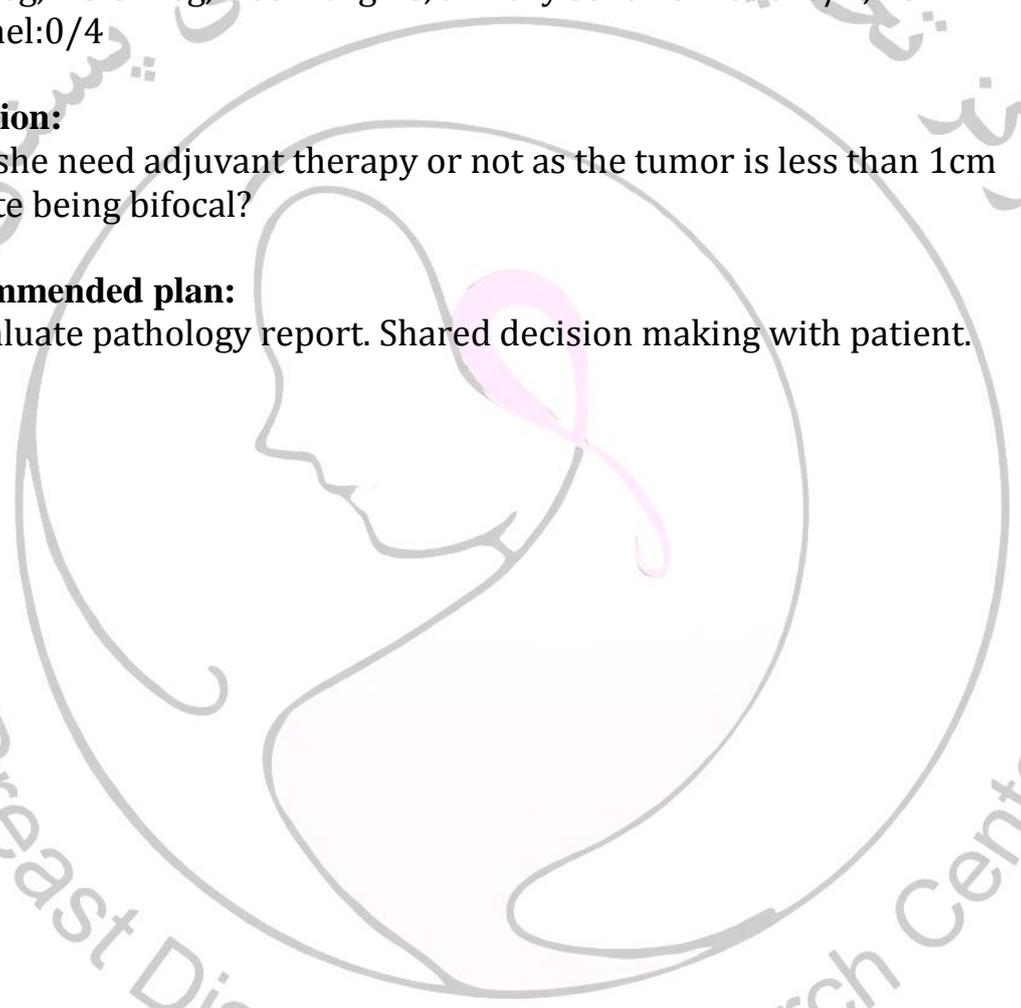

40 Y/O female, left breast mass, IDC, BCS + SNL, pT: bifocal, 0, 8 Cm, G1/3, LVI: neg, DCIS: neg, free margins, axillary sentinel node: 0/1, non-sentinel:0/4

**Question:**

Does she need adjuvant therapy or not as the tumor is less than 1cm despite being bifocal?

**Recommended plan:**

Reevaluate pathology report. Shared decision making with patient.
